

## Notes on Use

---

### 《 How to Use 》

- Please be sure to wash thoroughly before using for the first time.
- Please do not use other than its intended purpose.
- Cannot be used in the oven or come in direct contact with open flames.
- For safety reasons, please refrain from using when damaged or cracked.
- If and when the product breaks, the broken pieces are dangerous. Please handle the fragments with care.
- Please do not drag on table-tops or surfaces that scratch easily due to the possibility of scraping.

### 《 Maintenance 》

- Soon after use, please wash with kitchen detergent. Thoroughly rinse and dry before stowing away.

### 《 Handling of Natural Materials such as Wood and Stone 》

- The color, wood grain, and other variables may differ piece by piece due to its natural characteristics.
- For products that use natural materials such as wood and stone, please refrain from using in ovens, microwaves, dishwashers/dryers, and soaking in water for long periods. Using a damp cloth to wipe is recommended.

### 《 Microwaves and Ovens 》

- Can be used in microwaves. Please use along the notes of the microwave.
- Cannot be used in the oven or come in direct contact with open flames.
- For products with cracked surfaces or use natural materials such as wood and stone, please refrain from using in microwaves.
- The Single Flow Ornament Gold and Single Flow Silver Line use a special luster that may be used in the microwave. The luster used on the Fish & Clam Series cannot be used in the microwave.

### 《 Dishwashers and Dish Dryers 》

- Please use along the precautions of the machinery.
- For products that use natural materials such as wood and stone, please refrain from using in dishwashers and dish dryers.
- We recommend hand-washing delicate products.

## Understanding Pottery

---

- Due to the nature of ceramics, there may be slight variations in size, color, and overall look to the products.
- Due to various kiln firing conditions, there may be glaze and color unevenness.
- Some products use a special technique called crackling (surface with crackling glaze). These products purposely use this surface to bring out a unique atmosphere. These products are also less durable and should be used with care.

## Notation

---

- Specifications of products are subject to change without prior notice.
- The color and feel of the material may differ from images.
- Duplicating our goods and designs without our company's permission is strictly prohibited.

### ■ Mark Descriptions

#### Light Weight

Light and easy to handle, perfect for everyday use

#### Shape

Made for easy scooping

#### Strengthening Porcelain

Has excellent heat resistance and durability compared to general porcelain.

### ■ Size Description

Measurements in millimeters

φ: diameter L: major axis S: minor axis H: height cc: liquid capacity
